

SDRplay NDAA Section 817 and 848 Compliance Statement

SDRplay Limited are dedicated to providing software defined radio solutions of the highest quality. Our commitment includes adhering to the highest standards in product compliance, including full alignment with the National Defence Authorization Act (NDAA).

The NDAA Section 848 prohibits federal departments and agencies from procuring any foreign commercial off-the-shelf drone or covered unmanned aircraft system manufactured or assembled in countries identified as national security threats.

The NDAA Section 817 extends the restrictions of section 848 to include a additional and critical components. Whilst SDRplay does not manufacture UAS systems our hardware might be considered and used as a critical component.

SDRplay Limited hereby certify that all SDRplay products are in built in compliance with NDAA section 817 and section 848.
